General Guidance Notes:

Note 1:

It is very important to complete the application form correctly and submit all the required supporting documentation.

Note 2:

The applicant must ensure the data included in this application is correct. The DGCA/ASD will not contact you for clarification of details on application and therefore it is most important to have the correct information before applying.

Note 3:

Initial issue of a basic licence, removal of limitations from a basic licence or from a type rating or addition of type rating will be based on Certificate of Recognitions issued by a DGCA Approved Part-147 Training Organisation.

Note 4:

Only Air legislation examination is available at the present time.

Note 5:

A replacement licence will only be issued upon satisfactory information being provided that the holder has either lost the licence or had the licence stolen or damaged (a police report is required in case of lost or stolen). Should the replacement licence be issued and the lost or stolen licence found or retrieved the holder should inform DGCA immediately and surrender the old licence.

Note 6:

The referee required to countersign the form must be a quality manager or a senior nominated person within the quality section of Part-145 organisation of your current employer.

Note 7:

Experience worksheets/logbooks must provide information relating directly to your application. For example, if you are applying for a removal of limitation(s) from a type rating, only information relating to that type and limitation is required. In addition, it is only necessary to provide information on duration of experience relating to whichever licence and/or rating you are applying for. Tables 3 & 4 provide information of the minimum experience required for each application.

Note 8:

Applicants applying for initial issue, inclusion of another category, type rating, removal of limitation (basic) or removal of limitation (type) must submit certified experience worksheets/logbooks or practical certificate of recognition (as applicable).

Note 9:

The application checklist provided in page 6 is to be filled by all applicants and authenticated by a person approved by the employer after reviewing the application and attached supporting documents.

Note 10:

Applicants for DGCA Part-66 Licence on the basis of a foreign licence (conversion/temporary validation) must meet the following prerequisites:

- The foreign licence must be endorsed with at least 1 type rating.
- The applicant must have had the privileges to issue CRS under an authorization certificate issued by his previous maintenance organisation.
- The foreign licence must be verified by the authority of the issuing state.
- Applicant must successfully complete DGCA Air Legislation examination.

Note 11:

The application form is divided into 15 sections:

Table (1) shows which section of the application form to complete.

Table (2) shows the supporting documentations required with the application.

Table (3) shows the experience required for the issuance of initial licence.

Table (4) shows additional practical experience required to include another category or sub-category.
